

COMPLETE
BUSINESS SOLUTION
FOR VEHICLE
FITNESS & COMPLIANCE

AUTOMATED TESTING SYSTEM (ATS)

The Automated Testing System (ATS) is a government-mandated, technology-driven vehicle inspection system designed to ensure that vehicles comply with safety and emission norms set by the Ministry of Road Transport & Highways.

Our ATS solutions provide fully automated, accurate, and transparent vehicle fitness testing, helping reduce road accidents, control pollution, and improve overall transport safety.

WHY INVEST IN ATS?

- Government-driven mandatory vehicle fitness ecosystem
- High demand due to scrappage policy & fitness regulations
- Limited licenses — first mover advantage
- Recurring revenue model with long-term sustain ability
- Opportunity to partner with state transport departments

ATS is not just a business—it is a future-ready infrastructure investment aligned with national policy.

GOVERNMENT POLICY & COMPLIANCE

ATS centres operate under strict regulatory frameworks, including:

- | | |
|--------------------------------|-----------------------------|
| • GSR 652 (E) | — Initial ATS guidelines |
| • GSR 797 (E) | — Updated testing norms |
| • GSR 195 (E) dated 14.03.2024 | — Latest compliance mandate |
-

We ensure 100% approval-ready setup aligned with all norms of:

- Ministry of Road Transport & Highways
- ARAI
- ICAT
- CIRT

सड़क परिवहन
एवं राजमार्ग मंत्रालय
MINISTRY OF
**ROAD TRANSPORT
AND HIGHWAYS**

OUR END-TO-END ATS SETUP SUPPORT

We provide a complete turnkey solution, from concept to commissioning:

1. INFRASTRUCTURE DEVELOPMENT

- Site planning & layout design as per government norms
- Civil work guidance and execution support
- Lane design (Single Lane / Multi Lane ATS)

2. ADVANCED EQUIPMENT INSTALLATION

- Supply & installation of automated testing machinery
- Calibration and system integration
- Software & server setup

3. REGULATORY APPROVALS

- Documentation & liaison support
- Assistance in obtaining ATS license approvals
- Compliance audits and validation

4. TRAINING & CAPACITY BUILDING

- Operator & technician training
- Certification assistance
- Continuous skill upgrade programs

5. OPERATIONS & MAINTENANCE

- AMC & preventive maintenance
- Real-time technical support
- 24—48 hours service turnaround (Pan India)

6. BUSINESS & OPERATIONAL SUPPORT

- Revenue model guidance
- SOPs for smooth operations
- Marketing & branding support

KEY FEATURES OF OUR ATS MACHINERY

➤ Made in India Excellence

- State-of-the-art manufacturing facility
- Designed for Indian road and vehicle conditions

➤ Proven OEM Integration

Installed across leading automobile manufacturing plants

➤ Smart OEE Monitoring System

- Real-time equipment performance tracking
- SMS alerts before breakdowns
- Preventive maintenance planning

➤ Energy Efficient Technology

- ABB & Siemens regenerative motors
- Up to 70% power savings

➤ Advanced CAN-Based Communication

- Seamless device-to-server communication
- No complex wiring required

➤ QR Code Enabled Equipment

Instant access to:

- Manuals
- Maintenance logs
- Energy consumption data
- Service history

➤ Durable Engineering

- Hot-dip galvanized rollers
- 35,000+ hours lifespan
- Maintenance-free ceramic bearings

➤ Fully Government Compliant

- Approved under GSR 195 (E)
 - Among the few compliant ATS providers in India
-

OUR GLOBAL EXPERTISE WHAT MAKE US THE BEST

Our strength lies in combining Indian market understanding with global technological excellence.

We collaborate with internationally proven **ATS** technology partners and globally benchmarked engineering practices, enabling us to deliver world-class Automated Testing Stations aligned with Indian regulations.

GLOBAL TECHNOLOGY ADVANTAGE

- Access to globally tested ATS technologies used in advanced automotive markets
- Equipment designed as per international testing standards, adapted for Indian conditions
- Integration of automation, precision engineering, and smart diagnostics systems

WHY OUR GLOBAL PARTNERSHIPS MATTER TO YOU

- ▶ **HIGHER ACCURACY & RELIABILITY**
International-grade testing precision
- ▶ **FUTURE-PROOF INVESTMENT**
Ready for upcoming regulatory upgrades
- ▶ **Faster Approvals**
Designed as per compliance-ready frameworks
- ▶ **Operational Efficiency**
Reduced downtime with smart automation
- ▶ **Higher ROI**
Better throughput and optimized performance

A PERFECT BLEND: GLOBAL TECHNOLOGY + LOCAL EXECUTION

- While many providers offer equipment, VKRVPL delivers a complete ecosystem:
- Global-standard machinery
- Indian regulatory expertise
- On-ground execution capability
- Pan-India service support

This unique combination makes us one of the most reliable and technically advanced ATS partners in India.

OUR PROMISE

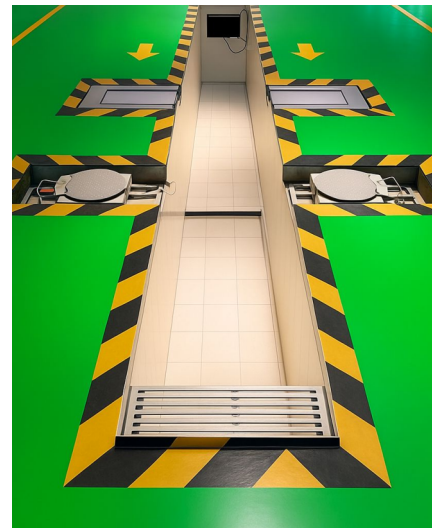

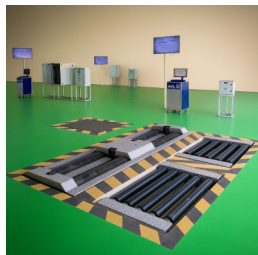

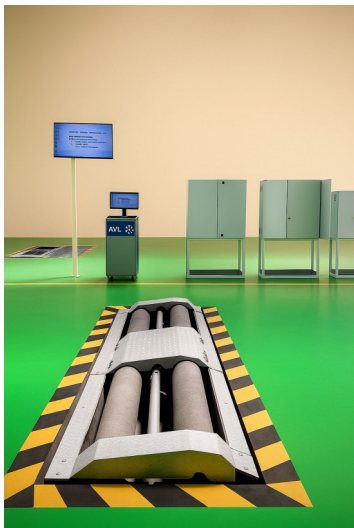

We don't just set up ATS centers— We build globally competitive vehicle testing infrastructure in India, helping you stay ahead in a rapidly evolving automotive compliance ecosystem.

BEYOND TESTING — COMPLETE GUIDANCE

We don't just test vehicles—We help vehicle owners

- ▶ Understand test results
- ▶ Identify issues early
- ▶ Reduce maintenance costs
- ▶ Stay compliant with government norms
